

Fence Near Wall

Classic 8

*Non Wind Bearing Fence. If lateral loads will be applied, fence should be designed by Structural Engineer.

Scale: None

Plan View

Install Sonotube.
Slice parallel to grid
tendons and place
over sonotube.

Note: Cut successive layers of Geogrid around proposed fence post or guardrail post installation points. Backfill and compact around Sonotube. Check fence design for embedment depth of fence post

This drawing is furnished for preliminary design purposes only, and should not be used for final design drawings or construction drawings without the certification of a professional engineer registered in the state in which the wall will be constructed.
