

Sapphire™

Whether used as a garden terrace, raised patio, or retaining wall, Rockwood's Sapphire™ offers the ultimate combination of style and performance. Sapphire's unique core design makes it lightweight and easy to build. At just six inches tall, Sapphire is the most practical landscape solution for retaining walls up to 4 feet. With its universal appeal and impressive building capability, Sapphire can turn an ordinary yard into the ultimate landscape.

ROCKWOOD®
RETAINING WALLS
A better way.™

The Advantages of the Sapphire™ System...

It's Fast...

Sapphire™ is a mortarless and pinless wall system. A rear lip located on the under side of each Sapphire block ensures precise alignment and setback, eliminating guesswork and making installation easy.

It's Simple...

Weighing only 55 pounds, Sapphire is as easy to handle as it is to install. Its size makes it perfect for any project including, but not limited to, terraced gardens, tree rings, and low retaining walls.

It's Strong...

Consisting of high quality concrete, Sapphire stands up to the elements. Plus, when filled with gravel, the cores make strong, vertical "stone columns" that create a maintenance free wall for years to come.

It's Versatile...

Sapphire's unique patented design makes it easy to create curves and shapes. Plus, the radius bottom eliminates the need for cleaning courses, saving time and hassle.

Sapphire™ Block

Unit specifications, availability, color, and fascia options vary by manufacturer. Please contact your nearest Rockwood manufacturer or dealer for more information.

Straight Split

Size: 6" H x 17.25" W x 12" D
